

Welcome to the digital EMV! We are pleased that you are taking the digital path together with us.

## Step by step to the digital EMV

### 1. Ticket for the digital EMV

As a first step to the digital EMV, register here for an event or workshop ticket:

[Register as a participant](#)

Participation in the EMV 2021 is free of charge and includes all functionalities and highlights of the digital platform - except for the workshops for which a fee is charged. If you choose one or more workshops, the participation in the booked workshops as well as a documentation of these workshops is included in addition to the standard services.

**To register, create an account once or use your existing conference account from previous Mesago or Messe Frankfurt conferences or workshops.**

### 2. Registration confirmation by email

Immediately after successful registration you will receive a confirmation email (sender is [emv-digital@mesago.com](mailto:emv-digital@mesago.com)). This mail is only for your information and has no further function.

### 3. Access data to the event platform via email

All registered participants will receive an email from Talque (email sender [schedule@talque.com](mailto:schedule@talque.com)) mid-March, **approx. 4 days before the event starts**. With this email you will receive access to the event platform.

**There you will have to set a password once and fill in your participant profile. Please note: You will create a completely new password here, which does not have to be the same as the one used for registration.**

With the password set here and your email address, you can then access the event platform again at any time.

## Settings and functions of the digital EMV

### Your profile/general settings

You can adjust various settings via your profile picture at the top right:

**Notes:** This is your personal area - use it as a filing space, for notes, drafts, or as a personal diary.

**Available for direct video calls:** If you activate this point, other participants will be able to contact you via video call.

**Settings:** Here you can make various settings:

- **Account:** Here you can change your profile picture, name, company, etc.

- **Networks:** Here you can see that you are assigned to the digital EMV.

- **Security:** Here you can change your password and see when your last log-ins took place.

- **Notifications:** Here you define if and about which activities on the digital EMV platform you will be informed by email.

- **Language:** Here you can choose your language.

- **Calendar:** Here you can link your Google or Microsoft calendar with Talque.

- **Logout:** Please log out here when leaving the platform.

talque

**Calendar:** Here you manage all your appointments. For example, agenda items you would like to attend or workshops you have booked are all listed here.

Furthermore, appointments that you have arranged with other users appeared here.

talque

**Contacts and groups:** Here you will see groups you belong to and all the people you have already been in contact with.

talque

**Chats:** Here you can see all your chats and conversations.

## Functions

After logging in to the platform, you will automatically land on the schedule page.

**Note: If you do not see the full width as shown below, zoom out on your PC so that you can see all the content at a glance.**

## SCHEDULE

Here you can see all agenda items in which you can participate in chronological order.

**If you have booked a workshop, it will also appear here. You can join the workshop via the agenda item. From 3 minutes before the workshop starts, you can join the workshop via this.**

Clicking on the lecture title, more information about the lecture and the speaker will open. If you would like to attend the lecture, click on "Participate" so that it is transferred to your personal calendar and you are automatically reminded at the start of the lecture.

Using the filter function, you can filter the agenda items by program type, format and day:

Write message

Matches with me 0%

Via the button "Write message", a chat window with this person opens. Here you can send a message.

If you click on the +, you can send files to this person, arrange meetings or videocall meetings or, if available, make a videocall directly with this person.

**Please note that these functions are only available after both participants have sent at least one message.**

## EXHIBITORS

All exhibitors of the digital EMV are listed here in alphabetical order.

Clicking on the exhibitor will open his company page with all important information and contact persons. Here you can get in contact with the company, see all related products, job advertisements and lectures if applicable.

Using the filter function, you can filter the exhibitors by exhibitor type, product categories, letters or via the full text search:

## PRODUCTS & SERVICES

Here the companies present interesting products and services.

Clicking on the product or service will take you to the product page with all the important information and contacts.

The products are listed in alphabetical order and can also be filtered using the filter function by product category, by initial letter or full text search.

## JOB ADVERTISEMENTS

Here companies advertise their job offers in the EMC industry.

By clicking on the job ad, you can access all the important information and contacts for the ad.

The job ads are listed in alphabetical order and can also be filtered by initial letter or full text search using the filter function.

## INFO & HELP

Here we give you again a small assistance for the use of the platform as well as further information about the EMV:

### Features

General features of the event platform

**Important technical settings**

**We are here to help**

**Information on the EMV 2022**

**Webinars on EMV relevant topics**

## Your contact for general questions about the platform

**Lukas Tolunay**  
Exhibition Assistant  
Phone +49 711 61946-690  
[lukas.tolunay@mesago.com](mailto:lukas.tolunay@mesago.com)
